

## Brambrüesch - Chur's Local Mountain

### A mountain experience right from the center of town

Direct access to summer and winter sports areas... Well in Switzerland that's only possible in Chur.

#### Summer

Beautiful mountain meadows, a unique alpine flora and breathtaking panoramic views await visitors from spring until autumn. Hikes over the Dreibündenstein to Pradaschier or Feldis offer an extremely varied hiking experience, with Pradaschier even offering a fast toboggan run at the end. Brambrüesch is also one of the top destinations in Switzerland in terms of mountain bike experiences thanks to the Alpenbikepark Chur with its 5 freeride routes as well as spectacular enduro bike trails. An interesting Moorland route and fun scooter rides for young and old complete the summer mountain experience.

#### Winter

Brambrüesch is home to 20km of natural slopes for skiers and snowboarders in winter. There is also a 5km long toboggan run, picturesque winter hiking trails and a small cross-country ski trail. Brambrüesch is an ideal starting point for the signposted snowshoe hikes in the Dreibündenstein 'snowshoe arena', which connects Chur's mountain with the two winter sport regions Feldis and Pradaschier. The AIS sports school offers great courses and equipment directly on Brambrüesch.

#### Cuisine and Group Experiences

All that exercise makes you hungry right?! Brambrüesch boasts several mountain restaurants that spoil their guests all year round with culinary delights, spectacular views and cosy sun terraces. Trips to Chur's mountain are also a great experience for companies, clubs, schools and other groups. The mountain can be reached directly from the town thanks to the gondola and can also be combined with a guided city tour through Chur's picturesque old town.
